JBWere Limited and its related entities and each of their respective directors, officers and agents disclaims all liability and responsibility for any direct or indirect loss or damage which may be suffered by any recipient through relying on anything contained in or omitted from this document.

Market value of listed securities reflects the last price traded from any applicable exchange during market hours and last price or closing price on the ASX after market hours, depending on the time this report was generated. The information provided in relation to Alternative Investments varies depending on the type of investment. It may be based on the cost of the investment. latest estimate or other method we determine and will not always be a valuation as at the reporting date. Some of these Alternative Investments are not liquid and the value provided is not necessarily an exit value. Valuations of unlisted securities and Alternative Investments may be based on information provided by third parties. You should contact your Advisor before acting on the basis of this value for any investment described. JBWere will report on the value of units held in the Gresham Private Equity Co-Investment Fund ARSN 109 573 015 (the "Fund") based on the valuation of the Fund as derived from the most recent quarterly reports provided by the Fund Manager (Gresham Private Equity Limited) to investors. The unit valuation reported in this document is not a value which has regard to unpaid Committed Capital. Further, units in the Fund are not redeemable and should be viewed as illiquid. Accordingly, unit valuations quoted in this report should not be construed as an exit value. Cost reflects the information currently available on the average underlying purchase value of the holding. Valuations for Fixed Interest Securities (FIS) may be based on information provided by third parties, and will vary depending on the type of investment. FIS Valuations are based on the cost of the investment, last reported market price or latest available estimate. The estimated yield shown for all FIS is the running yield, calculated as the security's estimated annual income divided by the security's market value.

The cost price provided in relation to International securities may vary from the actual cost due to fluctuations in the foreign exchange rates used to convert the cost price. You should contact your Advisor before acting on the basis of this value for any investment described.
