

The smarter English test.

Envoy is an easy-to-use and adaptive online English proficiency test.

Designed with teachers in mind: assess your student's true foundational and communicative English language skills in real time.

Our global test is powered by the latest A.I. technology, allowing for a bias-free and secure testing experience. Envoy combines the expert capabilities of linguists and A.I. to provide accurate insights into your students' performance.

With Envoy, you can provide your students with a more enjoyable and personalised testing experience.

Guide your student's English learning journey today with Envoy.

Simple and easy-to-use admin dashboard

Set your tests up using our user-friendly portal. Envoy's administrative dashboard provides data and insights so you can assist your students at every stage of their English language journeys.

Within the dashboard you can:

- ✓ set up a project (test event) in minutes
- 👤 drag and drop student emails to generate test invitations; only students whose emails have been added can take the test
- 🔗 students activate test with a simple click; no software download required
- 👥 track students' engagement and monitor their progress in real time
- 🕒 four modular license types available: Four Skills, Reading & Listening, Speaking, and Writing

Results and Score Report Card

Receive detailed results within 2 hours of students taking the test. The score report card will provide an overall score of English proficiency aligned to the CEFR (Common European Framework of Reference for Languages).

Students receive a sub-score for each skill and a detailed breakdown of proficiencies across various sub-skills. This provides you with a clear understanding of a student's key strengths and areas of opportunity.

English Proficiency Level Report explained:

- 1 Students receive an overall score between 0 and 120
- 2 Access images of your student during the test
- 3 Overall and sub-scores are aligned to the CEFR
- 4 Students receive scores for each skill and sub-skill
- 5 Feedback highlights individual strengths and weaknesses
- 6 Access samples of Speaking and Writing tasks

Security and proctoring

Our leading proctoring solution ensures test security and fairness by:

-  email verification and photo identification
-  face and eye movement tracking
-  copy and paste prevention
-  multiple voice identification
-  tab-leaving prevention
